SLEEPER SOFA MATTRESS..... 60W x 72D x 5.25H

- Sleeper Sofas include a premium comfort Memory Foam Mattress comprised of conforming Visco Elastic and dense Polyurethane foam, topped with cushioning fiberfill. This breathable, hypoallergenic mattress disperses heat and moisture, while supporting your body by redistributing weight evenly, relieving pressure points and thus allowing tense muscles to relax comfortably. The unique recovering memory foam slowly springs back into shape.

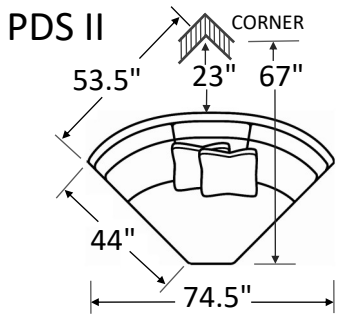

APOLLO is engineered for luxury and performance, providing proper support while minimizing pressure points. At its core lies a 2.0 density foam layered within 1.5-inch Serene® foam, infused with billions of microscopic air capsules. A two ounce fiber is applied to the front cushion border for soft appearance. An encasing of Trillium® ultra-fine fibers are blown into individually sewn pockets of the outer jacket to deliver the sumptuous cloud-like feel of natural down, while resisting flattening, allergens, and feather migration. When selecting the Apollo option, the back cushions and throw pillows will also feature 100% Trillium® fiber encased in a premium ticking.

LIMITATIONS.....

1. When the large tapered leg is specified, it will appear under the arm ONLY, paired with the medium tapered leg in all other locations. Therefore the large tapered leg option is not available on armless frames and ottomans (-44, -51A, -52A, -53A, -57L/R, -75L/R, -11A, -22A, and -33A).
2. The tall tapered leg may not be specified for use with sleepers as the mechanism would be visible.
3. Wedge dimensions can be confusing, be sure to take into consideration the distance required from the corner wall when configuring your sectional. Sleeper Sofas are not available within the sectional configurations.
